1. Claims 12-13 and 22-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 12, it is unclear what "a means for disposing said probe tip ends in electrical contact with locations on said electronic device" represents. Is it shown in any of drawings? In claim 13, it is unclear what "a depression surrounding at least one of said probe tip ends" represents. Is it shown in any of drawings? In claims 22-23, it is unclear what "an electrical interconnection means" and "a means for disposing said probe tip ends in electrical contact with contact location on said electronic device" represent. Are they shown in any of drawings? Furthermore, "said probe tip ends" has no antecedent basis.

2. Claims 22-~~23~~ are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

It appears that the specification does not have support for the limitations of an electrical interconnection means" and "a means for disposing said probe tip ends in electrical contact with contact location on said electronic device" as recited in claims 22-23.

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent

and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 6-19 and 22-24 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3,5,7 and 11 of U.S. Patent No. 5,821,763. Although the conflicting claims are not identical, they are not patentably distinct from each other because the limitations of claims 1-3,5,7 and 11 encompass the limitations of the instant claims 6-19 and 22-24.

5. Applicant's arguments with respect to claims 6-19 and 22-24 have been considered but are moot in view of the new ground(s) of rejection.

In the Application Serial No. 08/754,869 (now Pat NO. 5,821,763), non-elected claims 29-39 and 42-54 and 57-60 are the same as the claims 25-58 in the instant application and claims 6-19 and 22-24 are different from those claims. Therefore, the obvious double patenting rejection is still valid.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
